Software and Emerging Tech. Engineer focused on applying modern technologies to solve complex problems. My experience lies at the intersection of software, hardware, and design to build deployment-ready solutions.

EXPERIENCE

IT Infrastructure & DevOps Containerization Intern, GE Aerospace, Evendale, OH (May 2026 - Aug. 2026)

• Modernization of Model Based Design (MBD) legacy control tools for Siemens Teamcenter & NX applications supporting core design and planning functions.
• Operated as lead/sole engineer responsible for an application suite containing 8+ tools involving environment setup, OIDC & SSL integrations, and code refactoring.
• Technical usage: AWS, RHEL, Perl, Java, NX, Teamcenter, Apache, SWIFT, Git, SQL, WinSCP, Putty

Interactive Voice Response (IVR) Software Engineer Intern, 5/3rd Bank, Cincinnati, OH (Jun. 2024 - Aug. 2024)

• Developed new applications for the IVR & managed documentation for production and development servers resulting in faster development times for future applications.
• Programs & Languages Used: Java, XML, VXML, Jenkins, Confluence, Excel, Git

Founder, Milner Makes LLC, Independence, KY (2023 - present)

• Sole operated business focused on modern solutions and application development through innovative engineering.

RELEVANT SKILLS AND PROJECTS

• Software Engineering (Legacy & Modern)
• Project leadership
• Internet of Things (IoT)
• Solution Architecture & Systems Thinking
• Artificial Intelligence
• Braille Education Device, B.E.D
• Search and Rescue Coordinator, SARCO
• Robotic Dog Hydrogen Sniffer (Duke Energy)
• Agentic AI Hedge Fund Recommendations (NKU & Fidelity Center for Applied Technology)

EDUCATION

Northern Kentucky University – B.S. Applied Software Engineering, Minors in Applied Artificial Intelligence, Philosophy, Informatics, & Computer Science (Expected May 2028)

• GPA: 3.895
• Organizations: **Norse IoT** (President, 2024-2026, Project Lead 2024 - 2026), **Rocket Team** (Software Lead 2025 - Current)

AWARDS AND RECOGNITION

Eagle Scout - Oct. 2023

• Led and organized meetings, events, and activities for a youth leadership program, mentoring younger members and coordinating team efforts.
• Selected for an elite national honor society within the program, taking on multiple leadership roles at regional and state levels. One prominent role being the **website administrator** on both regional and national levels.
• Completed advanced leadership trainings focused on team management, decision-making, and organizational development.
